AI-integration

LANGUAGES

Swedish: Native
English: Fluent

SUMMARY

Fullstack .NET Developer focused on C#, ASP.NET Core, React, TypeScript, and modern web applications. I have built projects involving REST APIs, frontend interfaces, databases, testing, CI/CD, and cloud-related workflows.

My background as a train driver and driving instructor has given me a methodical way of working, a strong sense of responsibility, and experience working in structured environments where accuracy is crucial. I am still early in my developer journey, but I learn quickly, work with discipline, and am driven by understanding how systems work in depth.

SELECTED PROJECTS

CodeQuest – AI-driven coding platform **03/2026**
Group project · C# · ASP.NET Core · React · TypeScript · Azure OpenAI · PostgreSQL

A fullstack project where users solves coding challenges in a story-based environment. The work included API design, code validation, AI integration, frontend logic, and data storage.

Kafka booking system – event-driven booking application **04/2026**
Group project · C# · .NET · Kafka · React · TypeScript · REST API · Server-Sent Events

An event-driven fullstack project where bookings were handled through an API and events were distributed with Kafka. The frontend was updated with live data through Server-Sent Events, with a focus on integration between backend, event flows, and user interface.

InfraSprint – Kubernetes and observability **05/2026**
Independent project · .NET · Docker · Kubernetes · GitHub Actions · Prometheus · Grafana

An infrastructure-focused project where an ASP.NET Core API was containerized, deployed to Kubernetes, and connected to metrics, health checks, and monitoring.

EXPERIENCE

Fullstack C# .NET **02/2026 – 06/2026**
School of Applied Technology

Develop fullstack solutions with C#, ASP.NET Core, React, TypeScript, and modern development workflows.

Work in agile teams using mob programming, code reviews, and a focus on maintainable code.

Build and further develop APIs, frontend components, and integration flows with a focus on quality and learning.

Personal Trainer**03/2024 - 01/2026****Friskis & Svettis**

Designed individualized training plans based on clients' goals, level, and conditions.

Coached clients in strength, conditioning, and health with a focus on motivation, progression, and sustainable results.

Built strong communication skills and the ability to create trust, structure, and long-term continuity when working with people.

Train Driver and Driving Instructor**06/2011 - 10/2025****SJ AB / SJ Stockholmståg / MTR Pendeltågen / ProTrain Bemanning**

Worked in safety-critical environments with high demands for precision, responsibility, and sound decision-making.

Handled complex situations with calm, structure, and a focus on safety, quality, and punctuality.

Mentored and trained other drivers, which strengthened my pedagogical skills and my ability to communicate clearly while carrying responsibility.

EDUCATION**Fullstack C# .NET****10/2025 - 01/2026****School of Applied Technology**

Intensive educational program in fullstack development with a focus on C#, .NET, React, TypeScript, TDD, mob programming, and practical teamwork.

Webmaster, Higher Education Diploma**08/2023 - 06/2025****Högskolan Väst**

Two-year higher education program in web development, UX/UI, frontend, backend, Linux administration, security, and project-based work.

Fullstack Developer, Vocational Program**08/2024 - 10/2025****Företagsuniversitetet**

Education in JavaScript, React, TypeScript, HTML5, CSS3, agile ways of working, and modern web development.

Bachelor's Degree in Sports Science, Health Education**08/2020 - 06/2023****GIH, Gymnastik- och idrottshögskolan**

Education focused on health, behavior change, pedagogy, and sustainable performance. It provided a strong foundation for understanding human development, motivation, and well-being, as well as how theory can be applied in practical work.

Train Driver Training**01/2010 - 05/2011****TCC ProTrain**

Vocational training focused on safety, regulations, responsibility, and operational decision-making in complex environments.

Military Service, Squad Leader - 11 months**01/2009 - 12/2009****Swedish Armed Forces, Helicopter Wing**

Leadership, discipline, teamwork, and decision-making in a safety-critical environment.
